

CREATING TOMORROW'S LEADERS TODAY

CAPTIVATING . INSPIRING . THOUGHT - PROVOKING.

That's what Tahar is about.

Do you wish every member of your organization to be a leader? Could you use great ideas to inspire and energize your employees? Are you ready to take your business to the next level?

If you answered "yes" to any of these questions then you are looking in the right place for your next speaker. Taking the lessons learned building a proud reputation as a professional speaker; a successful career in real estate, and a happy home and family life up from nothing, Tahar will engage, inspire and energize your audience.

Every person in attendance will feel ready to reach their full potential. Tahar will share his secrets, strategies and stories with you. You'll discover how this success was earned with hard work, determination and the drive to find and seize opportunities while learning from setbacks. Tahar's lessons will help you reach all of your goals.

WHAT'S YOUR VISION

“What do you want? Do you have a plan? Do you even recognize your own value?”

Extraordinary success starts with extraordinary vision. Nobody succeeds by accident – it's the result of a strong, brave vision that lays down a foundation and a blueprint to follow. Only by visualizing and working towards your end goal will you achieve what you set out to do.

Tahar's advice and examples will help you to outline a strong, coherent vision for your business' future that will energize your workforce, and ensure that every level of your business moves in a positive direction.

LEAVING A LEGACY

“You can't have a better tomorrow if you're thinking about yesterday”

Nobody remembers the short-term successes. A good year might put your business on the map, but a good decade can set you up for success after success. Long-term legacy is often overlooked in favor of short-term goals, but by building a business that can grow and thrive for years to come will give you the freedom to reach higher and strive further.

By discussing the importance long-term goals and explaining how to overcome even the most pressing short-term problems, Tahar will put you in the right frame of mind to leave a legacy of success that'll keep your business moving forwards.

THINK BIGGER

“If you believe it, you'll see it.”

Why settle for being second best? What's stopping your business from growing to challenge and overtake the market leaders? The answer is fear. You're conditioned to think small, to accept the way things are and to settle for small successes.

This mindset is all that's holding you back. Failure isn't an obstacle – merely a learning experience – as Tahar's experience demonstrates. After listening to his presentations, you'll realize that if you keep thinking bigger and working harder, nothing is out of your reach.

SOLUTIONS FOR LASTING CHANGE

“Every skill is learnable. Every bad habit is un-learnable.”

Every setback is temporary, but if you're prepared to adopt the right attitude, methods and working practices, your success will be lasting. Listening to a speaker, applauding and then never implementing the ideas you've been given won't take your business to the next level. Adopting solutions for real and lasting change will.

Tahar's talks will share years of real life experience at changing businesses and outlooks for the better. The solutions will be provided to you, but it's up to you to make sure that you follow through on them.
